

Language Lab

Nirmala College maintains a good language lab to develop a continuous interest among students to learn the language as it encourages them to understand it and facilitates the understanding of the concepts of the language.

The lab is designed to provide the students with a strong platform for practical training in the language. They are exposed to functional language in use and are familiarised with the many pronunciation styles that are vital in everyday usage of the English language in today's world.

Objectives:

- 1 To make students recognise the sound of English through Audio-Visual aids and computer software.
2. To help them overcome their inhibitions and self consciousness while speaking in English and to build their confidence. The focus shall be on fluency rather than accuracy.
3. To enable them to speak English correctly with focus on stress and intonation.
