Syllabus of the course

Duration:30hrs

Module I-Introduction

Introduction to SPSS-Data analysis with SPSS: general understanding-SPSS: general description, functions, commands- SPSS file management

Module II Input and data cleaning

Defining variables - Manual input of data - Automated input of data and file import- Data manipulation - Data Transformation - Syntax files and scripts - Output management

Module III Descriptive analysis of data

Frequencies - Descriptives - Explore - Crosstabs – Charts

Module IV Statistical tests

Means - T-test - One-way ANOVA - Non parametric tests - Normality tests

Module V

Multivariate analysis - Factor analysis - Cluster analysis

Certificate course on SPSS

Assessment procedure

The successful participants of the course were determined on the basis of a written and practical examination. A written examination was conducted in the department on 5/02/2018 and a practical examination was conducted on 15/02/2018 in which all the participants were present. Students who have obtained above 40 percentage mark in the written examination and above 50 percentages of marks in the practical examination were declared as a successful participant. The certificates to the winners were awarded on 16/03/2018.

Assessment procedure

The successful participants of the course were determined on the basis of a written and practical examination. A written examination was conducted in the department on 14/02/2019 and a practical examination was conducted on 23/02 2019 in which all the participants were present. Students who have obtained above 40 percentage mark in the written examination and above 50 percentages of marks in the practical examination were declared as a successful participant. The certificates to the winners were awarded on 19/03/2018.
