ABOUT THE PROGRAMME

College life or university level education is one of the most challenging events in a student's life. When new students join a higher education institution, they come with diverse thoughts, knowledge, educational and financial backgrounds. They come into a first-hand unfamiliar environment, and many of them have little knowledge of a college. The main purpose of student induction programme is to help new students to familiarize and feel the new environment, inculcate in them the vision, mission and culture of the institution, help them build bonds with other students and faculty members. The entire Nirmala College fraternity wholeheartedly welcome all the newly joined students to this five day online student induction programme.
