FEEDBACK - EMPLOYER

Nirmala College is a source of efficient employees for firms. We conducted a survey among the employers about our candidates.

The survey reveals that the respondents’ opinion about general communication skills is average. Respondents have an average opinion regarding employees providing solutions to workplace problems. Respondents feel good that Nirmalites have the ability to work as part of a firm. Creativity of employees towards workplace challenges is poor. Respondents agree that employees have planning and organisational skills. It is revealed that respondents agree that employees are self-motivated and takes responsibility. An average opinion is given by respondents to the statement that employees are open to innovative ideas and learns new ideas and techniques. The response to the use of technology and workplace equipment is average. The employers feel good that employees are able to contribute to organisational goals. Employees are poor in the case of technical knowledge or skill. An average opinion was given regarding employees’ leadership qualities, innovation, creativity and their ability to manage. Employees’ relationship with seniors, peers and subordinates is good. Employees’ involvement in social activities is average. Respondents say good opinion about the employees’ ability to take up extra responsibility and obligation to work beyond schedule.

FEEDBACK - PARENTS

Nirmala College has been a dream of every parent since they believe that their children would come out as efficient lads once they are in this college. This is explicit in the feedback received from parents during the PTA meeting.

Majority of parents consider the high standard of learning as a reason for choosing this college. Sixty nine percent of students chose the present course because of their interest in it.

Majority of parents say that the college has a good academic environment. They find that the approach of teachers and standard of learning are very good. The college also maintains good discipline.

Parents are highly satisfied about facilities in the college. Most of them consider the lab facility good. Sixty percent parents say that there is a very good library in the campus. A good number of parents, say 40%, are satisfied with sports facilities of the college. They are also happy about the placement facilities, personality development and extra-curricular activities. They are of the opinion that the college also takes utmost interest in the character formation of students. Most of the parents say that the canteen facility and the provision for other basic amenities like Photostat, Telephone and Internet are also good.

Forty five percent parents consider the functioning of college PTA good. Eighty three percent parents consider the conduct of internal assessment fair and useful. The parents also consider grading system very good. Seventy two percent parents opine that exams are conducted on time and they appreciate the semester system. But they seem worried about the late publication of results. Fifty seven percent say that results are not published on time.

FEEDBACK – STUDENTS

2014 – 2015

The feedback taken from students about the present syllabus and curriculum of the college reveals several facts. It shows the reasons for choosing the subject and the satisfaction level of students in various aspects like efficiency of syllabus and curriculum, conduct of examination and the effectiveness of internal assessment.

The survey shows that fifty four percent of students are interested in their present programme. Only thirty one percent students chose the course because of good job opportunities. Only a few students, about four percent, chose the subject because of not getting admitted to any other course. Eleven percent were influenced by friends and relatives while choosing the course.

From the survey it is identified that 41.6% UG students and majority of PG students demand improvement in the syllabus. The survey also shows that 35.5% UG students and 18.2% PG students consider the syllabus as up to date and relevant.

Majority of students, say 65%, consider the internal assessment system capable of developing interpersonal and analytical skills.

47.2 % of PG students and 33.4% UG students find the curriculum effective and 24.5% PG students and 52.1% UG students demand improvement in the implementation of the curriculum. Majority of the UG students prefer improvement. Only 5.7% PG students and 7.7% UG students consider the curriculum ineffective.

Fifty two percent consider the syllabus effective. Thirty Six percent students suggest updation of syllabus. Only 9 percent students are totally unhappy with the syllabus.

Majority of the students opine that the timely completion of syllabus is successful. 34% students consider it moderately successful.

The open courses conducted by various departments are considered useful by 57% of students.

Majority of the students, say 62%, think that the examinations are conducted on time. 27% consider the exams too much delayed.

About 67% students think that results are not published on time. Only 23% consider the publication of results as prompt. 36.1% PG students and 44.4% UG students think that answer scripts are valued fairly.

Sixty percent students consider the grading system good. Seventeen percent consider the system ineffective. Seventy one percent students regard the semester system good.

The feedback taken from students about the present syllabus and curriculum of the college reveals several facts. It shows the reasons for choosing the subject and the satisfaction level of students in various aspects like efficiency of syllabus and curriculum, conduct of examination and the effectiveness of internal assessment.

The survey shows that 63% of students are interested in their present programme. Only 23% students chose the course because of better job opportunities. Only a few students, say 7%, chose the subject because of not getting admitted to any other course. 7% were influenced by friends and relatives while choosing the course.

From the survey it is identified that 53.7% UG students and 32.5% PG students demand improvement in the syllabus. The survey also shows that 33.7% UG students and 39% PG students consider the syllabus as up to date and relevant.

60% students consider the internal assessment system capable of developing interpersonal and analytical skills.

Majority of students, say 65.3% of PG students and 61.7% UG students, find the curriculum effective and 30.5% PG students and 25.6% UG students demand improvement in the implementation of the curriculum. Only 3.2% PG students and 3.4% UG students consider the curriculum ineffective. 51% students suggest updation of syllabus. 35% consider the syllabus effective. Only 11% students are totally unhappy with the syllabus.

43% students opine that the timely completion of the syllabus is successful. 42% students consider it moderately successful.

The open courses conducted by various departments are considered useful by 55% of students.

Majority of the students, 54%, think that the examinations are conducted on time. 24% consider the exams too much delayed.

About 71% students think that the results are not published on time. Only 20% consider the publication of results as prompt. More than 70% PG students and 56% UG students think that the answer scripts are valued fairly.

66% students consider the grading system good whereas 25% consider the system ineffective. 78% students regard the semester system a better choice.
