X FUTURE PLANS

1. Annex to the Main Academic Block

It is proposed to have an annex to the main Academic block. The proposed block will address the problem of inadequacies in the scientific laboratories housed in the main block. The new block will connect the main block with the Silver Jubilee Block (PG Block). The estimated cost for the construction is Rs.1,00,00,000/- which is expected to be covered under RUSA.

4. Conversion of the terrace of administrative block into an auditorium

The terrace of the newly constructed administrative block is now in the process of roofing. It is proposed to convert the area into an auditorium with a tiled floor. The expenditure is expected to be met from the RUSA grant sanctioned.

5. Connecting bridge between the main block and the administrative block on the first floor.

Though the main block, auditorium block, administrative block and the Library block are now connected, that is only at the ground floor level of the main block. We propose to erect a connecting bridge between the main block and the auditorium block at the first floor level of the main block, which would provide easy access to the students and teachers in the main block to the proposed

auditorium (above administrative block) and the Library building. The cost is expected to be met by the RUSA grant sanctioned.

6. Gents Hostel

The existing Gents Hostel is in a dilapidated situation. The condition is beyond repair. Therefore, it is essential that we need to construct a new gents hostel. The means for the construction is requested to be found by the management.

8. Construction of building in Diamond Jubilee Block

As per the rules of Mahatma Gandhi University Kottayam, self-financing programmes are to be separated from regular courses. Facilities of aided courses should not be used for unaided courses. 9. ICT Enabled class rooms and Creation of Digital Knowledge

Technological advancement and innovations in educational transactions have to be undertaken by all HEIs, to make a visible impact on academic development as well as administration. At a time when our educational institutions are expected to perform as good as their global partners, significant technological innovations have to be adopted. To keep pace with the developments, HEIs have to enrich the learning experiences of their students by providing them with state-of-the-art educational technologies. The campus community must be adequately prepared to make use of Information and Communication Technology (ICT) optimally.

- a) WI-FI facility for students in Library, Main Block, PG Block and Diamond Jubilee Block
