LEARNING THROUGH GAMIFICATION:

Fun is the Future

22 TO 24 SEPTEMBER 2021

MICROSOFT TEAMS

OVERVIEW

Gameful and playful experiences have been positively shown as a technique to motivate students and enhance their learning process. This topic has gained great interest in both academia and industry, as reflected by the number of academic publications in recent years, especially those showing case studies, hands-on experiences, or start-ups specialized in gamification and games for educational purposes. Serious game assisted learning is crucial to design appropriate teaching outlines to meet learners' different needs and for practitioners to design proper serious games to facilitate learning effectiveness. The programme objective is to provide an international forum for the dissemination and exchange of scientific information on theoretical, generic, and applied areas of serious games. This event is organized by IQAC Nirmala College, Muvattupuzha. This programme focuses on a significant blend of industrial and academic professionals committed to the study, development and deployment of serious games as useful and effective tools to support better teaching, learning, training and assessment.

ABOUT THE COLLEGE

Nirmala College, Muvattupuzha was founded in 1953 and it has now become one of the premier educational institutions in India with more than 3000 students and 136 faculty members.
